

Cassina

From 9 to 10: a collection of fine tables

that give value to sensorial materials, from marble to solid wood.

The numbers increase and the 9 collection of cylinder side tables designed by Piero Lissoni extends. *10* is more than a table, **it is a sculpture, a monolith. An important and particularly refined piece made from Carrara white marble.**

Available in one size, *10* can be used as a classic dining table or also as a representative meeting table.

The 9 side table also extends with new materials and **two new sizes for a smaller dining table.** Its top in low gloss **solid tinted black ash-wood or Canaletto walnut** is produced with the same workmanship as the marble version to hollow the top and recreate the characteristic border around its perimeter. Supported by a metal anthracite grey frame, the table rests on a cylinder base in black Marquinia marble.

The **9 small tables are now available in grey Carnico marble**, a resistant and refined material characterised by deep white veins, and also in low gloss **solid tinted black ash-wood or Canaletto walnut** for the Ø40cm version.

10 measurements: Ø130cmxh.73cm, 20mm top thickness with a thinned edge

10 materials: frame in anthracite grey painted metal to support the parts in white Carrara marble (top, column, lower disc base).

9 dining table measurements:

Ø110xh.73cm, 25mm top thickness with a defined edge

Ø85xh.73cm, 25mm top thickness with a defined edge

9 dining table materials:

top	low gloss solid tinted black ash-wood or Canaletto walnut
base	black Marquinia marble
frame	aluminium painted anthracite grey

Cassina
