

Cassina

Define your needs, define your space.

***Props* by Konstantin Grcic.**

Like scenery on a stage, *Props* are **arrangements that design the home's landscape, an architectural presence**. These five striking sculptures have been conceived to be **freely interpreted by their user**: to define a space, to functionally support objects or simply to create surfaces.

Cassina has implemented a specialised folding technique for the construction of these pieces made from a 5mm-thin metal sheet. The metal is laser-cut, folded, and then treated in order to leave a rough industrial finish.

Measurements:

Props 1	160x42xh.80cm
Props 2	70x56xh125cm
Props 3	55x105xh125cm
Props 4	160x55xh.62cm
Props 5	96x90xh.75cm

Materials: metal sheet.
